THE SIXTY-THIRD REPORT OF THE REGISTRAR-GENERAL ON THE VITAL STATISTICS OF QUEENSLAND FOR THE YEAR 1922.

The 1922 Annual Report on the Vital Statistics for the State of Queensland is herewith presented, the following tables enumerating and classifying the Births, Marriages, and Deaths, which occurred during the year.

On the 4th day of April, 1921, the Commonwealth Government took a Census of the people of Australia, but the compilation of the tables and report thereon is still incomplete.

The Estimated Mean Population of the State was 782,890 persons, on which figure the Birth, Marriage, and Death Rates have been based.

BIRTHS.

The Births registered during the year numbered 19,988, which is a decrease of 345 on the record established last year.

Of the foregoing 10,264 were males and 9,724 females. These figures indicate a very unsatisfactory state of affairs which is reflected in the birthrate by a fall of 1·06 per thousand of the mean population from 26·59 in 1921 to 25·53 in 1922.

There were 919 infants born out of wedlock, of whom 497 were males and 422 females.

During the year 178 children (87 males and 91 females) were given legal rights of children born in wedlock under the provisions of "*The Legitimation Act of* 1899."

MARRIAGES.

There were 5,876 marriages solemnized in Queensland during 1922, a decrease of 89 on last year's figures. The marriage rate fell from 7·80 in 1921 to 7·51 in 1922, a decline of 0·29. This is a matter for serious consideration as the decline in the number of marriages celebrated is almost certain to be followed by a still lower birthrate.

The total number of Marriages registered during the year was 5,876, of which 5,677 were celebrated by Ministers of Religion as follows, and 199 couples were married by Registrar :—

Church of England	1,791
Roman Catholic	1,310
Methodist	980
Presbyterian	930
Other Denominations	666
And by Registrars	199
Total	5,876

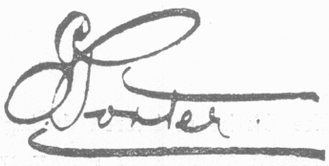
DEATHS.

The Deaths numbered 7,153, of whom 4,372 were males and 2,781 females. This represents an increase of 10 on those of the previous year. The death rate per 1,000 of the mean population, however, shows a decline of 0·20 per cent. on that of the previous year. This is a matter for congratulation due, perhaps, to the activity of the preventive measures adopted towards the introduction of Epidemic Diseases and their suppression.

The principal causes of death were :—

Heart Disease (all kinds)	981
Cancer (all kinds)	667
Senility	473
Congenital debility, &c.	468
Diarrhœa and Enteritis (under and over two years) ..	404
Tuberculosis (all parts)	338
Chronic Nephritis	317

Again, as in 1921, it is gratifying to be able to report a decrease in the Infantile Mortality ; the rate falling from 5·41 in 1921 to 5·05 in 1922.



Registrar-General.

Registrar-General's Office,
Brisbane, 5th July, 1923.

NOTE.—The amount actually realised bears but a small proportion to the amount sought to be recovered; but it must be borne in mind that in many cases the defendant, on a levy being made, becomes insolvent, and any property seized passes to the Official Trustee for the benefit of the Creditors, and consequently no sale by the Sheriff takes place. Many also of these writs of *fieri facias* were for large amounts, the suitors holding mortgages over and being in possession of the property seized, and were merely lodged for the purpose of obtaining the Sheriff's title for the conveyance of the interest, the purchase money being nominal.

* The District Courts have been abolished, the cases formerly dealt with by them being now included in the business of the Supreme and Circuit Courts.
† In computing the total number of days occupied, the duration of the Court day has been reckoned at six hours.

NOTE.—No business was transacted at the District Courts at Blackall, Clermont, Cooktown, Georgetown, and Normanton. The District Court at Thursday Island has been abolished.

LAW AND CRIME—*continued.*

* From 1883 number and tonnage of vessels calling at more than one port in Queensland during same voyage only counted once.

† Prior to 1907 the exports of wool have been taken as the production of wool, scoured being expressed as greasy on the basis that one pound of the former equals two pounds of the latter, except for the years previous to 1866, when greasy and scoured wools were not separated in the Customs returns.
